Adaptalyfe — Payment docs & deliverables index

Last updated: 2026-10-29
Branch: `ai-staging`
Product decision: Subscription SaaS + Freemium (Basic / Premium / Family × monthly / yearly)

This is the **final checklist** of everything created for payment / subscription work: how many files, what each is for, and what the product requires.

How many files were created?

#	Count	Category
A	**3**	Full integration guide (`.md` + `.pdf` + `.docx`)
B	**3**	Short product recommendation (`.md` + `.pdf` + `.docx`)
C	**3**	This index (`.md` + `.pdf` + `.docx`)
D	**2**	Code: fixed Stripe Price IDs helper + unit tests
E	**1**	App change: `create-subscription` uses env Price IDs
	12	**Total new/updated deliverables in this package**

(Related existing doc, not created in this package: `mobile_flutter/GOOGLE_PLAY_SUBSCRIPTIONS_SETUP.md` *)*

A) Full guide — all models, keys, APIs, DB

File	Format	Purpose
PAYMENT_INTEGRATION_GUIDE.md	Markdown (source of truth)	E2E: business models, SaaS vs ecommerce, recommendation, Stripe/Apple/Play, key management, APIs, **no DB migration needed**
PAYMENT_INTEGRATION_GUIDE.pdf	PDF	Same content for sharing / print
PAYMENT_INTEGRATION_GUIDE.docx	Word	Same content for editing in Word

Inside the guide you will find:

1. All business models (subscription, ecommerce, freemium, usage, license, marketplace, donation, hybrid)
2. Adaptalyfe primary recommendation table (Choose / Why)
3. Plan catalog + store product IDs
4. Company keys vs per-user customer IDs (with examples)
5. API map (`GET /api/subscription` , create/confirm, Apple/Play verify)
6. Database: **no new columns required**

B) Short recommendation — “this type” one-pager

File	Format	Purpose
PAYMENT_PRODUCT_RECOMMENDATION.md	Markdown	Short **Choose / Why for Adaptalyfe** brief
PAYMENT_PRODUCT_RECOMMENDATION.pdf	PDF	Share with stakeholders
PAYMENT_PRODUCT_RECOMMENDATION.docx	Word	Editable one-pager

Primary recommendation table:

Choose	Why for Adaptalyfe
Subscription SaaS	Ongoing life-support software — needs recurring access
Freemium / trial	Free default + 7-day trial + Basic / Premium / Family
Monthly + yearly	Landing + Stripe + Apple; Play monthly first
Fixed Stripe Price IDs	Pro ops; stops duplicates (`STRIPE_PRICE_*`)
Store IAP on mobile	Required for iOS/Android digital subscriptions

---

C) This index (how many + inventory)

File	Format	Purpose
`PAYMENT_DOCS_INDEX.md`	Markdown	Lists **how many** docs/files and what each contains
`PAYMENT_DOCS_INDEX.pdf`	PDF	Same index for sharing
`PAYMENT_DOCS_INDEX.docx`	Word	Same index editable

D) Code implemented (product requirement)

File	Purpose
`server/stripe-plan-prices.ts`	Resolve plan → fixed Stripe Price from env
`server/stripe-plan-prices.test.ts`	Unit tests
`server/routes.ts`	`POST /api/create-subscription` uses env Prices (production: no auto-create)

Env vars to set (staging = test prices, production = live prices)

```
STRIPE_PRICE_BASIC_MONTHLY=price_...
STRIPE_PRICE_BASIC_ANNUAL=price_...
STRIPE_PRICE_PREMIUM_MONTHLY=price_...
STRIPE_PRICE_PREMIUM_ANNUAL=price_...
STRIPE_PRICE_FAMILY_MONTHLY=price_...
STRIPE_PRICE_FAMILY_ANNUAL=price_...
```

Also keep: `STRIPE_SECRET_KEY`, `VITE_STRIPE_PUBLIC_KEY`, `STRIPE_WEBHOOK_SECRET`.

What the product requires (final)

Required	Status
Subscription SaaS + Freemium	Documented + already in product
Plans Basic / Premium / Family × monthly / yearly	Documented; Play monthly in code today
Fixed Stripe Price IDs in env	**Code done** — add IDs in Railway/env
Stripe + Apple + Google integrations	Already in codebase; documented
`GET /api/subscription` entitlement	Already exists

DB column changes	**Not required**
Ecommerce as core	**Not recommended**

Reading order

1. **Stakeholders / quick:** `PAYMENT_PRODUCT_RECOMMENDATION.pdf`
2. **Engineers / ops (full):** `PAYMENT_INTEGRATION_GUIDE.md` (or `.pdf`)
3. **Inventory of files:** this index
4. **Android Play setup:** `mobile_flutter/GOOGLE_PLAY_SUBSCRIPTIONS_SETUP.md`

File count summary (copy/paste)

```
PAYMENT_INTEGRATION_GUIDE.md
PAYMENT_INTEGRATION_GUIDE.pdf
PAYMENT_INTEGRATION_GUIDE.docx
PAYMENT_PRODUCT_RECOMMENDATION.md
PAYMENT_PRODUCT_RECOMMENDATION.pdf
PAYMENT_PRODUCT_RECOMMENDATION.docx
PAYMENT_DOCS_INDEX.md
PAYMENT_DOCS_INDEX.pdf
PAYMENT_DOCS_INDEX.docx
server/stripe-plan-prices.ts
server/stripe-plan-prices.test.ts
server/routes.ts (updated)
```

Docs package: 9 documentation files (3+3+3)
Code package: 2 new + 1 updated
